Other programs (841) Review SoftonicWindows 7 Service Pack 1 is an important update of the system that includes performance, stability and security improvements for Windows 7, as well as a bunch of new features - many of them under the hood. The new features included in Windows 7 Service Pack 1 are dynamic and RemoteFX memory, which improve system virtualization functionality. Most of these windows can be found in India, the United States and Indonesia. It has more languages, which allow the user to choose one of them to operate the windows. The first, dynamic memory allows you to increase the density of the virtual machine without sacrificing performance or safety. The second feature in Windows 7 Service Pack 1, RemoteFx, allows you to virtualize the GPU (graphical processor unit) on the server side and produce rich media and the user experience 3D in a virtual desktop environment. Other interesting changes are improved reliability when connecting to HDMI audio devices, printing using the XPS viewer and restoring previous folders in Windows Explorer after reboot.
